

The song, "Is He Worthy?" by Andrew Peterson, has been a traveling companion of ours for the past few weeks. The broken world all around us, where the shadows seem to deepen and encroach, remind us that the Lord is our light and that He implants His light within all believers calling them to carry His luminous message of hope. His coming to ransom the sin-bound slave and to conquer the grave remind us that He brings wholeness! We represent this kingdom of His, operating in His stead while we serve and wait and groan with all creation to see everything made new! Oh yes, **He is indeed the Worthy One! Let Him thus be praised!**

Therefore, we praise Him in this season for the expansion of *Students for Christ* across the European continent. During recent travels in places like Albania, Sweden, Denmark and Finland, Blair had the privilege of participating in training events to encourage and mentor students, national workers and missionaries. It's humbling to hear of and observe firsthand God's call on people's lives, the sacrifices made, the journeys traveled with their twists and turns, the trials experienced and the victories won, the students reached and the ministries planted. **We are on mission with the Worthy One! Let Him be praised!**

"The Way, the Truth, and the Student Life" - Finland

"Mosaik Inspirationsdag" - Sweden

Please pray for CONNECT, our annual Europe-wide training event from the 20th-27th of July. Please pray for the planning & logistics, instructors, evening speaker, children's workers, safe travels, weather, health of attendees and of course, for God to meet us and call workers to student mission. Thanks!

Josiah out with friends

We are near the **end of our 4-year term**, and will be **returning to the USA in mid-August**. We are **scheduling meetings from September 2019 until June 2020**. Let us know if you'd like us to be with you during a missions service/convention or even just to reconnect over tea & coffee.

Thank you for your part in helping us see students' lives changed across Europe!
