

BONINS IN BELGIUM

latest news from Blair & Dina

Autumn 2026

AGWM

Our long-standing mission is **“Reaching Students for Christ - Transforming the University, the Marketplace, and the World.”** While the European secular context is challenging, we are encouraged to see the overflow of this mission through former SFC students - and the Holy Spirit - at work in the **marketplace** here in Belgium, impacting the lives of their European colleagues.

Our first story comes from Luc* who was an SFC leader during his degree program at the university in the city where we live. He was active in receiving training on both a national level as well as at Connect, our European-wide summer event. Following graduation, he pursued employment in the medical field and found part-time work in Brussels an hour away. Being faithful in the little things, God opened up more part-time work, and he landed a position in a small practice closer to home. We were selfishly glad for this as Luc has been a reliable 'chauffeur' to the airport for us in this busy travel season. It was during these car rides that we heard about the relationship he was building with this new employer and how specific concepts he assimilated at Connect were fueling his intentionality in sharing his faith in subtle (the practice of being) and more overt ways (the practice of proclamation). At the six-month mark of his contract, his employer took him out for a meal to celebrate. We learned that this face-to-face, more personal time together led to questions about Luc's faith in Jesus, and his boss recognizing that what Luc had - inner peace, joy in difficulty, conviction of principles - are qualities he knows he needs. **Please pray for Luc as he continues to share his faith with this colleague, that he may see clearly his need for a savior and surrender his life to Jesus.**

Sarah* and her husband met through the SFC student ministry years ago, became leaders in the ministry and are now working full time in the marketplace. Sarah's simple, intentional faith at her job opened a door with a colleague facing a challenging life situation. When Sarah offered to pray, God answered in a powerful way that deeply touched the colleague and her family. Even amidst a subsequent season of immense hardship and heartbreak, this secular, unchurched couple recognized God's presence and asked Sarah and her husband to support them. They have since begun meeting regularly to study the Bible and walk out a discipleship journey. **Please join us in praying for these two couples as their relationships and faith continue to grow!**

**names have been changed*

Enoch Contemporary Ballet, in which our daughter, Evangeline, dances and serves in the leadership team, started our month of October with a bang! We hosted all eight visiting company members in our home. And for the first seven days of their international tour/mission trip, they performed in nine different events enamoring audiences with anointed worship pieces and story ballet vignettes of healing from the New Testament. Gospel seed was sown, people were moved to tears, spontaneous prayer occurred, and souls were connected to Jesus. *If you are interested in having them minister in your area, don't hesitate to let us know. They will most assuredly bless your event, congregation, school, etc. with their excellent spirit and artistry!* @enochcontemporaryballet

A final word on giving: **Merci!** Your generosity has helped us to stay on mission to work as Paul did - *“strengthening the souls of the disciples & encouraging them to continue in the faith.”* (Acts 14:22) We understand that **proximity** to Luc, Sarah, her husband, and so many others is what bears effective, long-term fruit for the Kingdom. As stated above, we also believe in the strategic mandate of “Reaching Students for Christ” and have personally been made aware of regions of the world where this need is great. Please pray with us: (1) for wisdom to discern the most effective means to help develop this ministry in these locations. (2) Secondly, please pray for more workers. Finally, (3) please pray for continued provision. We are currently raising \$5,000 to cover upcoming travel from Dec 2026-May 2027. If you'd like to give toward that, please use the link below and know that we are profoundly grateful!
