

BONINS IN BELGIUM

advancing the purpose of Christ in European university communities

Fall 2010

ENCOUNTER 2010

In our last newsletter, we requested prayer for a global student gathering and campus ministry training event that was to be held in Budapest, Hungary during the month of August. **ENCOUNTER 2010** met in a former Communist era campground that had been used for indoctrinating the youth of Hungary. During *Students For Christ's* conference, it was employed to instruct young people in the ways of Christ. Following is an excerpt of encouragement to those who participated. It will give you a feel for what God did.

"Over 30 nations were represented with more than 500 total participants over all. Around 150 students from around the world gathered together with leaders, pastors, missionaries, evangelists and workers to connect with God and be empowered for ministry. Many of you, including some of the children, received a call from God on your lives for mission and ministry. Several of you were filled with the Spirit and hundreds were involved in evangelistic outreaches at 11 different locations throughout the city.

Some of you came from as far away as Argentina and Japan and dozens of local church members were also inspired and activated for ministry. Friendships were forged, lives were touched, people were saved, delivered, healed. Whether you were a student or a minister from around the world or part of the Hungarian youth and national church, you helped build an international team that touched the city of Budapest as well as people returning to numerous places across the globe.

Videos of the evening sessions, pictures and other material are now available on the SfCEurope.org website. You were there - you were a part of it. You helped write history and much fruit will come of your effort, sacrifice and participation!"

As you have read above, your prayers on behalf of this event were effectual! Thank you for your partnership with us; your investment is reaping eternal rewards!

Claire and a girl from Hungary praying together

If you look closely at the picture to the left, you will see our boys in their **new school**. Yes, for the first time ever, some of our children are NOT being schooled at home, including Callie at LSU. We have been praying for a way for our boys to improve their French and feel like a new French-speaking Christian school in our area is an answer to that prayer. Although it has been an adjustment (more for the parents than the boys -they love it!), we are thankful for God's leading in this new season.

Driving to Budapest from Brussels is a 12-hour road trip. And we couldn't have done it without our new wheels provided by the Louisiana Youth **Speed-The-Light** program. Y'all are always a **HUGE blessing to us** and continue to inspire us as you give sacrificially! Merci beaucoup! Check out our thank you video at www.youtube.com/eurocajun

Prayer Matters

- * for Blair as he begins traveling across Europe: safety, divine appointments, effective networking
- * smooth adjustments for our family at the beginning of this new school & ministry year
- * for Callie as she continues to adjust to life in the US
- * wisdom and direction in coordinating European university ministry

Thank you!

It's because of partnership with you that we are able to help with events like Encounter 2010, giving people, sometimes for the first time, opportunities to meet God. **You are making a difference in the world!**
